DILLIER CLASSICS

Liability and Risk Declaration

Gipfel Granfondo

Version: 30 October 2026

By registering for the Gipfel Granfondo, I confirm that I have read and understood this Liability and Risk Declaration and the Regulations. Participation is voluntary. The organiser is SiD Marketing GmbH, Aemmertweg 4, 5425 Schneisingen, Switzerland, info@silvandillier.ch.

1. Personal responsibility and open roads

The Gipfel Granfondo takes place on public roads that are not fully closed to traffic. I comply with traffic rules, signs and the instructions of the police, traffic marshals, guides, route marshals and organiser. I ride with foresight, defensively and respectfully. A Time Station does not give me right of way.

2. Sporting risk and health

Cycling involves risks including crashes, collisions, mechanical defects, weather, exhaustion and injuries, including serious or fatal accidents. I only start if I am physically able and adequately prepared. If in doubt, I seek medical advice before taking part. The responsible medical or event team may stop me for safety reasons if a recognisable risk arises.

3. Equipment and safety

I wear a correctly fitted cycling helmet throughout the ride. My bicycle is roadworthy and complies with the Regulations. I carry supplies for minor mechanical problems and am responsible for my personal belongings.

4. Medical assistance

Necessary medical assistance may be organised in the event of an accident, injury or illness. Medical assessment and treatment are undertaken by qualified persons. The costs of treatment, transport and rescue are governed by applicable law and insurance terms. Claims that cannot legally be excluded remain unaffected.

5. Liability and insurance

I am responsible for my riding, equipment and route choice. To the extent permitted by law, the organiser, its guides and volunteers are not liable for damage arising from the usual risks of participation, the actions of third parties, or loss of or damage to personal belongings. Liability for intent, gross negligence and other claims that cannot legally be excluded remains unaffected. I arrange appropriate accident, health and third-party liability insurance.

6. Photo, video and audio recordings

I acknowledge that recordings may be made for reporting on and promoting the Dillier Classics. Any required consent is obtained voluntarily and separately from this participation confirmation. For individual portraits, the intended images and publication context are disclosed beforehand. Registration or participation alone does not replace any required consent. A legal guardian decides for minors. For objections or withdrawal of consent with future effect: info@silvandillier.ch. Section 15 of the Regulations also applies.

7. Data processing and communication

Necessary personal data is processed for registration, payment, timing, results, safety, essential event communication and administration. Necessary data may be shared with appointed registration, timing, payment and IT service providers. Emergency and health information is processed only for its specified purpose and where necessary. Details: www.dillierclassics.ch/datenschutz. Voluntary marketing newsletters and required photo consent remain separate from participation confirmation.

8. Cancellation, interruption and changes

Section 12 of the Regulations applies to cancellation, postponement, interruption and changes. If the event is cancelled before the start, the place remains valid for the next edition; if postponed, it remains valid for the new date. Under the Regulations, interruption or shortening during the event does not give entitlement to postponement or a refund. Claims that cannot legally be excluded remain reserved. The optional entry-fee protection is subject to its separate conditions.

Electronic confirmation during registration

I have read and accept the Regulations, the participation conditions applicable to my booking and this Liability and Risk Declaration. This confirmation does not replace any separately required photo or marketing consent.

Confirmation is given electronically during registration. For minors, the legal guardian's consent and any required electronic signature must be obtained. No paper submission at race-number collection is planned. In the event of differences between language versions, the German version prevails, subject to mandatory law.
